VENDING MACHINE / BEVERAGE COOLER INCENTIVES CONTROLS

TERMS AND CONDITIONS

1. Program Offer: This application covers products purchased and installed after August 13, 2009 and is not retroactive for products purchased or installed prior to August 13, 2009. Projects must be pre-approved and must be completed within six (6) months of the pre-approval date. Delmarva Power may cancel this application without liability if Customer has (1) not installed the approved project, and has (2) not applied to Delmarva Power for a project extension within six (6) months from the date of Delmarva Power's pre-approval. Within ninety (90) days of installation, Customer must notify Delmarva Power and provide required post-installation documentation as described elsewhere in these Terms and Conditions. Customers who fail to provide timely notification and/or fail to provide required documentation may be denied incentive payment.

2. ELIGIBILITY: Incentives are available to Delmarva Power commercial, industrial, governmental, and institutional electric customers for the purchase and installation of Qualifying EEMs (as defined in Paragraph 3, below) in the Delmarva Power service territory, subject to these Terms and Conditions.

3. Qualifying EEMs: Prescriptive Electric Efficiency Measures (EEMs) identified in official program materials and site-specific Custom Measures approved by Delmarva Power. Energy efficient equipment or services purchased, contracted for, or installed prior to notice of Program pre-approval are not eligible for program incentives. Technologies that purport to save energy through reduction of voltage or power conditioning are not eligible. EEMs that displace/replace electrical energy use with another fuel (fuel switching) are not eligible. Unless explicitly pre-approved, EEMs must be new and covered by warranties.

4. OWNERSHIP OF CAPACITY AND/OR ENERGY/ ENVIRONMENTAL SAVINGS CREDITS: a) EEMs purchased and installed in part through incentives provided by this program are the property of the Customer, subject to any limitations contained within these Terms and Conditions. b) Notwithstanding the above, Delmarva Power holds sole rights to any electric system capacity credits and energy or environmental credits that may be associated with EEMs for which incentives were received, and Delmarva Power can dispose of these credits in any manner authorized by applicable law or regulation. c) In no event will activity associated with any energy or environmental credits noted in Section 4(b) result in interference with the Customer's ability to operate EEMs as approved in the Program incentive award.

5. PROJECT APPROVAL: a) Pre-approval from Delmarva Power is required for all projects. b) Delmarva Power reserves the right to pre-inspect any project. c) Delmarva Power reserves the right to approve or disapprove any proposed EEMs in its sole reasonable discretion. d) No Project-related equipment may be ordered or installed prior to the

date of Delmarva Power's Pre-Approval.

6. PROJECT VERIFICATION: Delmarva Power is not obligated to pay any pre-approved incentive awards until it has performed a satisfactory post-installation verification. If Delmarva Power determines that EEMs were not installed in a manner consistent with the approved application, or if unapproved EEMs were installed, or if the installation was not consistent with generally accepted engineering practices, changes may be required before payment is issued. Delmarva Power will not make payment until it has verified that the Customer has received, as appropriate, final drawings, operation and maintenance manuals, and operator training, and is substantially satisfied with the installation of eligible equipment.

7. INDEPENDENT TESTING: Delmarva Power reserves the right to deny incentives for any EEMs or equipment that have not been favorably assessed or approved by recognized, independent authorities, such as the Underwriter's Laboratory (UL), Intertek ETL, or American Refrigeration Institute (ARI).

8. INCENTIVE AMOUNTS: Prescriptive Incentive payment will be at the rate specified in the table of program criteria and incentives per program year, on this application, verified by Delmarva Power, subject to the following limitations: a) The maximum incentive is \$250,000 per electric account affected per program year and \$500,000 per customer combined for all Incentives, Custom and Prescriptive. b) **Delmarva Power reserves the right to deny any incentive application that may result in Delmarva Power exceeding its program budget. Cash incentives under the programs are offered on a first-come, first-served basis and are subject to project and Customer eligibility and availability of funds.**

9. EEM COSTS: The Customer must provide copies of all invoices or other reasonable documentation that verify the costs of purchasing and installing the EEMs, including all materials, labor, and equipment discounts. Invoices must indicate a verifiable breakout of all EEMs purchased for installation under this Application.

10. SCHEDULE FOR INCENTIVE PAYMENTS: a) Delmarva Power expects to pay all incentives within 4 weeks after project completion. Project completion requires: (1) submission to Delmarva Power of all documentation; (2) completed installation of the approved EEMs; and (3) Delmarva Power verification and acceptance of (1) and (2) above, all in accordance with the specifications outlined elsewhere in these Terms and Conditions. b) **Delmarva Power reserves the right to apply cash incentives to any of the Customer's unpaid or overdue accounts.**

11. MONITORING AND EVALUATION FOLLOW-UP VISITS: Delmarva Power reserves the right to make follow-up visits to Customer's facility during the 36 months following the actual completion date of the project at a time convenient to the Customer, and with at least one-week advance notice. The

purpose of the visit(s) is to review the operation of the EEMs for program evaluation purposes, including monitoring their energy performance. The scope of review is limited to determining whether program conditions have been met. The Customer must allow access to the EEMs and related project documentation. Delmarva Power has the right to a refund for incentives paid if, at any time, it learns that the EEMs were not actually and properly installed or were subsequently disconnected within 36 months after installation.

12. CHANGES-TO / CANCELLATION OF THE PROGRAM: a) **Delmarva Power may change the program requirements, incentives, or Terms & Conditions at any time without notice, including suspending acceptance of applications or terminating the program.** b) In the event of program change, pre-approved applications will be processed to completion under the Terms & Conditions in effect at the time of pre-approval by Delmarva Power. c) Submission of a completed application does not entitle the Customer to program participation.

13. PUBLICITY OF CUSTOMER PARTICIPATION: Delmarva Power reserves the right to publicize a Customer's participation in the program, including information such as: projected project energy savings, the incentive amount, and other information that does not compromise reasonable Customer expectations of confidentiality of proprietary or competitive information. In such instances, Delmarva Power will obtain Customer permission to make such information public.

a) Delmarva Power, its officers, directors, employees, affiliates contractors and agents shall not be liable to the Customer for any direct, special, indirect, consequential or incidental damages or for any damages in tort (including negligence) caused by any activities associated with this program and Customer's participation therein. By participating in this Delmarva Power program, Customer agrees to waive any and all claims, whether arising in contract or tort and to fully release Delmarva Power, its officers, directors, employees, affiliates, contractors and agents from any and all damages, of any kind.

b) The Customer shall protect, indemnify, and hold harmless Delmarva Power, its officers, directors, employees, affiliates, contractors and agents from and against all liabilities, losses, claims, damages, judgments, penalties, causes of action, costs and expenses (including, without limitation, attorney's fees and expenses) incurred by or assessed against Delmarva Power or its agents arising out of or relating to the performance of this Application, whether arising in contract or tort.
