**Pepco and Delmarva Power C&I Energy Savings Program – Update #2015-08
Deadline for Submitting 2015 Project Applications**

We recently announced that the program has committed 100% of the authorized incentive funding available for the 2015-2017 cycle and new project applications are being added to a waitlist. Due to the current funding status and in preparation for the new program year, we will stop accepting project applications on December 4, 2015.

- All project applications must be submitted to the program office by Friday, December 4, 2015 by 5 PM. Only complete application packets will be accepted.
- All acceptable applications received by the December 4th deadline will be added to the waitlist. You will receive a project reference number notification within 3 business days.

Additional incentive funding must be approved by the Public Service Commission before additional projects can be pre-approved. We will provide updates as soon as information becomes available.

Thank you in advance for your help and cooperation. If you have any questions about these guidelines, please contact our customer service hotline or send an email.

Sincerely,

Ellen Embry
