Pepco and Delmarva Power C&I Energy Savings Program – Update #2016-01

Impact of the Public Service Commission's Order 87285 released 12/8/2015

We recently announced that we were no longer accepting project applications as 100% of the authorized incentive funding available for the 2015-2017 cycle has been committed.

The Public Service Commission (PSC) released Order 87285 on December 8, 2015 approving a portion of the additional funding requested for the Pepco and Delmarva Power C&I Programs. The funding approved in this order has already been committed to project applications that were received in 2015.

Pepco and Delmarva Power will request additional funding in the next filing, due to the PSC February 1, 2016. We anticipate any new funding approved would be available in Q3 2016.

- 2015 waitlisted projects will be eligible for any future incentive funding approved.
- The Program will not accept new applications until further notice.
- All projects require pre-approval prior to the purchase of equipment and installation.

We will provide updates as soon as information becomes available.

Thank you in advance for your help and cooperation. If you have any questions about these guidelines, please contact our customer service hotline or send an email.

Sincerely,

Rosa Cassidy, Senior Manager
